What's not covered: Understanding what is not eligible for coverage is as important as knowing what is covered. Like most pet insurance policies, PHI Direct does not cover pre-existing conditions, preventive care, or elective procedures. With New-Condition Coverage any condition experienced in one policy year will be considered pre-existing in future policy years, including any associated or bilateral conditions. **Flip this page to learn how our 'New-Condition Coverage' works for you.**

Most pet insurance providers penalize the many because of a few. **Not PHI Direct.**

The PHI Direct Advantage

While most pet insurance plans premium prices are impacted by the claims made year-over-year by its members overall, PHI Direct's New-Condition Coverage completely avoids this by starting each policy year with a clean slate.

This means that any condition occurring in one year will become pre-existing the next and won't be covered in future policy years, so we can be there for you for the big financial hits of initial diagnosis and treatment.

Low-Cost Premiums

Our premiums start lower than \$20/month for cats and \$30/month for dogs*. That's cheaper than buying a Tim Horton's iced coffee every day.

High-Value Payouts

We put more dollars towards paying invoices and claims to the PHI Direct pack of furry companions.

Faster Coverage

With PHI Direct, your deductibles are low, which means we start paying your eligible vet bills sooner!

Complete Care

Our plans cover a significant amount of new conditions (including breed-specific conditions), plus things like sick visit exam fees and coverage while traveling.
